

## TAO PLANNING WORLDWIDE 2009-2010

The TAO programs are organized in Utrecht, Budapest and London. The programs in the Netherlands and in Hungary start in September, and those in the UK start in January of every year.

The workshops and change labs are 6 weeks apart to enable participants to organize their intervention groups in between workshops. Total investment in time is 16 days per year.

If you are not able to attend a certain workshop you may catch up in a different location, within the same academic year and if you contract for it at the start of your program.

The workshops marked in **red** are open workshops.
